Hi all,

My apologies for not giving you guys an update after the last commenting that I'd have the revised draft BaP assessment. The team and management finished up at the end of last week. I've attached clean and redline (compares showing changes since the first time you saw the draft) of the toxicological review, supplemental information, and response to peer review comments (separately).

Please take a look and let me know if you have any concerns or questions on the revisions by Wednesday, October 26th. If you can't comment on the assessment, let me know as soon as possible and we'll figure it out.

Thanks!
Samantha
